## North Ed Superintendent Search: Community Survey

---

Tue, Nov 19, 2024 at 3:25 PM

North Ed Students, Parents, Staff and Friends,

As you may know, Northwest Education Services (North Ed) has begun the process to find a new superintendent to replace Dr. Nick Ceglarek, who will be retiring in 2025. We are now asking for your assistance in the process to find his replacement.

Please consider providing input through this [community survey](#) to help us gather perspective on the qualities and characteristics our community wants to see in the next superintendent.

The North Ed Board of Education enlisted Michigan Leadership Institute to conduct the search for our next leader. Your survey feedback will be invaluable as Michigan Leadership Institute uses it to draft a clear candidate profile to be posted early next year. **We encourage you to complete the [community survey](#) while it is open, now through Nov. 25.**

[Michigan Leadership Institute](#) will review applicants and present those most qualified to the Board in March. Following interviews, it is our hope to have a new superintendent selected by the end of spring and scheduled to start on July 1, 2025.

We will do our best to keep you informed of this process, and you may find more information on a dedicated [Superintendent Search webpage](#), accessible from North Ed's homepage, [www.NorthwestEd.org](http://www.NorthwestEd.org).

Dr. Ceglarek has set a high bar with his leadership and service, and we wish him well in his retirement and next steps.

We look forward to seeing the high-quality candidates who come forward and identifying the next superintendent who will lead North Ed well into the future.

Respectfully,

**Joseph Fisher**  
President  
Board of Education  
Northwest Education Services
